

[REDACTED]

To Sirius Controls,

I am writing this letter of recommendation for the excellent services and a superior product offered by Sirius Controls. I've been working with Sirius for the last two years on numerous accounts and have zero complaints. With the multipoint system, my customer has not experienced any freeze up at their compressor station and have standardized Sirius Controls FUSION pump. With An excellent product comes excellent service. The knowledge and expertise of the Sirius team in West Texas is above all others.

Since using Sirius Controls, I have switched companies and continue to use and recommend Sirius for my complete chemical injection systems and services.

Sincerely,
[REDACTED]
