

To whom it may concern;

I have worked with Sirius Instrumentation Controls and Colin Broberg for around 6 years, over this time they have helped me supply quality chemical pumps to numerous customers in the Oil and Gas industry. I have had Colin perform work for me in his previous employment and is why it was an easy switch to follow him to Sirius. At [REDACTED] we help our clients from start to finish facility construction projects and always are looking for the most reliable, easy to maintain, accurate chemical pumps to supply to our clients. Sirius chemical pumps are always the first pumps recommended to any of our clients, when they are looking to improve their chemical programs.

We have also purchased Solar products for our new construction, they have always carried a good supply of Solar panels and a variety of batteries for our needs. Dealing with Colin and their sales team has always been easy, they always have been prompt and have shown professional service.

I look forward to continuing our relationship for many years to come.

Thank you

Darren [REDACTED]
